pays more are rooted in philosophical and practical differences in the way its health system provides benefits, in the drug industry's political clout and in many Americans' deep aversion to the notion of rationing. The state-run health systems in Norway and many other developed countries drive hard bargains with drug companies: setting price caps, demanding proof of new drugs' value in comparison to existing ones and sometimes refusing to cover medicines they doubt are worth the cost. The government systems also are the only large drug buyers in most of these countries, giving them substantial negotiating power
