The approved ground is whether GXL is required to plead to an allegation that it refused consent to the transfer of Swift's interest in the petroleum permit to Greymouth for collateral reasons unrelated to Greymouth's financial capability to meet obligations under the permit and the deed reserving to GXL a royalty interest.

McClellan chairs the FDA's Reagan-Udall Foundation, is co-chair of the Quality Alliance Steering Committee, sits on the National Quality Forum's Board of Directors, is a member of the Institute of Medicine, and is a research associate at the National Bureau of Economic Research.

“Regional Health Ministries have already committed students; and we are now close to capacity, as Caribbean pharmacists have responded well to this new opportunity for increased access to UTech's pharmacy programmes,” Campbell-Grizzle said.

Sometimes after one is rejected, its maker offers a discount. England also controls prices by capping the level of National Health Service spending on drugs each year and requiring the pharmaceutical industry to reimburse the NHS for any spending over those limits. Of 40 branded drugs covered by Medicare Part B and also available in England in the third quarter, 98% were more expensive in the U.S., according to the Journal's analysis of data from Medicare and the NHS's Business Services Authority. For instance, two syringes of Cimzia, an anti-inflammatory for rheumatoid arthritis and other diseases, cost England's health-care system $1,117—less than half
the $2,357 Medicare paid, the Journal found
