Sometimes after one is rejected, its maker offers a discount. England also controls prices by capping the level of National Health Service spending on drugs each year and requiring the pharmaceutical industry to reimburse the NHS for any spending over those limits. Of 40 branded drugs covered by Medicare Part B and also available in England in the third quarter, 98% were more expensive in the U.S., according to the Journal's analysis of data from Medicare and the NHS's Business Services Authority. For instance, two syringes of Cimzia, an anti-inflammatory for rheumatoid arthritis and other diseases, cost England's health-care system \$1,117—less than half the \$2,357 Medicare paid, the Journal found
