Anything within Digital Performer can be automated, as far as you know, controlling the audio's volume, having it go off and on, equalization, whatever perimeters are within the particular plug-in, all of them can be automated, m-kay? Right here, is some automation controller data, right here, m-kay? What this does is this is controlling the re-verb input off of an auxiliary send, okay? This is a send coming off one of my vocal tracks going into an auxiliary channel that has altverb on it and what I do is I utilize two different re-verbs and I've went over this on another tutorial, and what basically happens is when I'm performing this part, the room is getting bigger at that point

The relationship between tanning and acne has been widely studied, but is commonly misunderstood. While we all know that tanning is unsafe and unhealthy, many people believe that tanning is a magical cure for acne. Tanning may have short term effects on your skin that look like they are helping your acne
